

IVOMECEPRINEX® Container Recycling Common Collection Day How-to Tips

- **Getting Started**

1. Register with your provincial 4-H office to determine your collection area and drop-off point and for collection point contact information.
2. For information on publicity and marketing materials, contact Merial Canada's Isabelle Tremblay-Summers, at 1-888-637-4251, ext. 6021 or isabelle.tremblay-summers@merial.com.
3. Ensure adults are available to oversee the collection of the containers.
4. Request a Material Safety Data Sheet for IVOMECEPRINEX® from your provincial 4-H office, or Merial (phone number above) or simply by visiting the recycling section of either of the two following web sites: www.ivomec-4h.com or www.merial-sponsorships.com

- **Collecting Containers**

1. Prior to officially designated date of the Recycling Day, collect IVOMECEPRINEX® Pour-On and Eprinex® containers from producers in your area OR be sure producers in your area are aware of the collection day so they can deliver containers to your established collection point.
2. Ensure containers are completely empty of product when preparing them for drop-off at a collection depot; it is important to triple rinse them prior to drop off.
3. Let alcohol evaporate from empty containers. Leave them outside with the cap removed to allow evaporation. **Return containers with the cap off.**
4. Rinse the outside of the containers to remove excess dirt and material.
5. Leave the labels on the containers for product verification.
6. The collection depot will document the return and then fax a completed form to Merial Canada for payment.

NOTE: Share these handling guidelines with area producers to ensure containers are clean and dry for your collection.

- **Delivering Containers**

1. Container collection should be completed prior to the common collection day.
2. Deliver the IVOMECEPRINEX containers to the designated Collection point (see your provincial 4H for list of depots).

- **Refunds**

1. Merial Canada will issue \$2 for 2.5-litre, \$3 for 5-litre and \$12.50 for 20-litre containers.
2. Encourage producers to donate their refund to your club for activities.

If you require assistance or have further questions, please contact your provincial 4H office, or Isabelle Tremblay-Summers at 1-888-637-4251, extension 6021, isabelle.tremblay-summers@merial.com, or your local Merial Sales Representative.
